A BLOODY ENCOUNTER

Chinese Are Making a Terrible Struggle to Check the Onward March.

GUNS FROM MANILA.

The Casualties Are Reported Heavy—Pie Tsang Was Battle Ground of the Second Fight—Tuan in Command.

Washington, Aug. 7.—The announcement received through Admiral Remy and Commander Taussig of reported heavy fighting on the road beyond Tien Tsin was the news of interest in the Chinese situation. Little doubt was expressed at the navy department that the news was substantially correct. It is probable a later report may reduce the list of casualties among the international forces, but it is evident that the move on Pekin is at last fairly under way and that strong opposition has been encountered.

The war department officials, who have been exceedingly reticent for several days as to news from the seat of war, admitted that the naval dispatches were received that the announcement of the battle was not unexpected. Opinion among the various officers now in Washington is somewhat divided as to just what is presaged by today's events.

The more optimistic are inclined to think that such a severe blow as the Chinese must have received at Peit Sang will result in a speedy disintegration of the forces now opposing the march of the international column. In line with this prediction it is prophesied that the Chinese government would find means to send the ministers from Pekin under escort and thus stave off the advance upon the capital.

London, Aug. 7.—"The advance of the allied forces commenced today," cables the British consul at Tien Tsin under date of Aug. 4. This is the first official information received that the attempt to relieve Pekin has begun. It is accepted as correct.

The British consul does not mention any fighting, but the Shanghai correspondent of the Daily Mail, telegraphing Sunday says:

"The Pekin relief column is reported to have suffered a check. The Chinese are said to have adopted Tugela tactics and after several hours of fighting to have retreated."

This is the only message received in London bearing out the reports of Admiral Remy and Commander Taussig regarding an engagement at Pie Tsang. The fact that the advance did not begin until Saturday is taken to strengthen the accounts of a battle Sunday.

The Chinese minister, Chih Chen Lo Feng Lu, communicated to Lord Salisbury a message from the tsung-li yamen dated July 31 reiterating the statement that the ministers were safe on that date and recounting the friendly relations between them and the yamen, as well as reporting the sending of supplies to the legations by the yamen. The message contains this important statement:

"A successful termination of the conference with the ministers for their conveyance under escort to Tien Tsin is expected, but on account of the commencement of hostilities at Tien Tsin the code telegrams for transmission to the representatives are considered undesirable."

This appears to confirm the report that the Chinese government will endeavor to stop the march to Pekin using the ministers as hostages.

The Lokal Anzeiger of Berlin publishes an interview with Li Hung Chang, quoting him as declaring emphatically that China must not, in any circumstances, cede any more territory to any power. In reply to a question why the rebellion was not put down, Earl Li is reported as having said:

"I blame Prince Tuan, the empress dowager and the whole Pekin government. But for the lack of energy the situation would never have become so serious."

The St. Petersburg correspondent of the Daily Mail says:

"Active negotiations are proceeding between Russia and the United States, the probable outcome of which will be a resolution to uphold the integrity of China unconditionally."

A Shanghai correspondent of the same paper says the Americans there are urging the appointment of Gen. MacArthur as commander in China of the allied forces.

Wreck on the Cotton Belt.
Pine Bluff, Ark., Aug. 7.—A disastrous collision occurred on the St. Louis Southwestern (Cotton Belt) at Aurich, 30 miles north of here, in which five men were killed and two seriously injured.

Aurich is a small station and fast freight No. 15 took the siding so as to allow the southbound passenger train No. 3 to pass. By some means the switch failed to work and the passenger train crashed into the caboose of the freight at regular speed and before the occupants of the caboose could jump they were killed or injured. Conductor Sample lived three hours. The passenger engine and baggage car were turned completely over and are complete wrecks. Four freight cars were demolished.

ENGLISH IN HAWAII.

It Is Now the Language of the Islands, for Courts and Schools.

Honolulu, July 27, via San Francisco, Aug. 7.—English is now the language of Hawaii. All court proceedings must be in that language, legal notices must be published in English papers published in the English language, and the last public school in which the teaching was in Hawaiian has been closed. For over half a century there has been a dual system of languages in court proceedings. All persons with a drop of Hawaiian blood who were charged with criminal offense were obliged to be tried by jury on indictment drawn in Hawaiian, including the examination of witnesses, the arguments of counsel and the charge of the judge, though every one concerned might understand English. In all civil cases, where any of the parties were Hawaiian, a jury composed of half Hawaiians and half whites was impaneled. The first grand jury ever impaneled in the islands was called at Honolulu, Island of Hawaii, for the July term of the circuit court.

The Records Called For.

Georgetown, Ky., Aug. 7.—The prosecution in the Powers case was granted a subpoena duces tecum on State Auditor Coulter requiring him to bring his records into court. This was done to contradict the testimony of ex-Auditor Sam Stone who testified he discharged W. H. Culton in December and charged him with stealing \$1000. The prosecution expects to show by the record that Culton was paid a salary in both December and January and by other witnesses to prove that since that date State Auditor Stone recommended Culton to various people as being entirely trustworthy.

The defense asked and was granted forthwith an attachment against E. E. Hogg, Culton's brother-in-law and an attorney, who had been subpoenaed, but failed to appear as a witness.

The Trial Will Decide.

Knoxville, Aug. 7.—A Middlesboro special to The Sentinel says John Powers has opened a law office in Harlan courthouse and announces that the result of Caleb's trial will decide whether he will give himself up. He says if Caleb is acquitted or a mistrial, all of those under indictment, including Governor Taylor, will go to Frankfort. Judge Finley, father of Charles Finley denies his son is to take part in the Indiana campaign and says Governor Mount will act as to Governor Taylor when he gets ready.

Huntington on Train Robbers.

New York, Aug. 7.—Speaking on the subject of train robberies in general and the recent robbery of a Union Pacific train, President C. P. Huntington of the Southern Pacific railway, said in an interview: "Passengers on railway trains are entitled to protection. People in New York are also entitled to protection, but some of them get sandbagged every night. I think the government should put one man, well armed on every mail train. As to whether or not the railway companies should put on armed guards as a protection against train robbers, that is a question for consideration and not to be decided offhand." Mr. Huntington further said that it was known that a government guard was on each mail train robbers would not attack the train.

Two Soldiers Drowned.

Seattle, Aug. 7.—The steamer Bertha has arrived from Cook Inlet and Copper river. Her officers report that Captain Abercrombie, in charge of the United States government work in that section, has completed 100 miles of military road reaching into the interior from Port Valdes. While the Bertha was in port two soldiers of Abercrombie's command were drowned by the capsizing of a boat. Their names were not learned.

Poisoned His Father.

Fresno, Cal., Aug. 7.—Fred Hines, 13 years old, has confessed that he poisoned his father, who is lying dangerously ill at the county hospital. The boy said that his father treated him cruelly and had refused to allow him to drive his team. He concluded to kill him. He and his younger brother bought the poison which Fred put in his father's coffee.

Yellowstone Park Burning.

Helena, Mont., Aug. 7.—The big fire raging in the Yellowstone National park is being fought by every soldier in the park and all the men engaged in road work. Deputy United States Marshal Jackson, who has returned from there and who reported the fire, said when he left it was reported the fire had extended for a distance of two miles and still spreading. Men who have been in the park for years say it is the worst they have ever seen. Deer and elk have

WEDNESDAY, AUG. 8, 1900.

Capt. Riche, government engineer, has decided to recommend a survey of the Brazos river to determine its navigability. Of course the survey will be made and much of the credit of this result is due to the intelligent manner in which the subject was presented to Capt. Riche at the Waco conference by C. L. L. Foster and others.

Pity Texas can't put up the stuff out of which to make sacks for this fall's cotton picker. Every man, woman and child who picks cotton this fall will pay from 8 to 10 cents per yard for cotton sacking which is made in the East. Too bad. It won't be that way long, however, for cotton mills are being projected in every enterprising city in Central Texas. —Madisonville Meteor.

A tenant farmer of Illinois, accompanied a local farmers' club on a recent visit to the State A. and M. College and Experiment Station, and on returning writes to the Farm Home, of Springfield: "I must say I left there with a far better opinion of the usefulness of our experiment station than I had before." I would be better for both farmers and experiment stations, if such visits should become general in all the states, Texas included.

The First Bale.

The first bale of new cotton, briefly mentioned in the Eagle yesterday morning, was raised in Burleson county and brought here by Tol Smothers, who has brought in the first bale for several years successively. The bale was ginned free of charge by the Bryan Cotton Seed Oil-mill Ginnery, and Smothers expressed himself as greatly pleased with the staple, sample and turnout, and with the treatment he received, and said he would bring his entire crop to the oil mill ginnery. The seed was clean and the sample excellent. The oil mill paid Smothers a \$10 premium. The bale was weighed at the Lawrence warehouse and tipped the beam at 490 pounds. Mr. G. S. Parker gave a sack of flour as a premium. The cotton classed strict middling and was sold by Saunders & Johnson for 10½ cents per pound.

Letter From Cuba.

Columbia Barracks, July 31, 1900.
Dear Old Friend Eagle and It's Many Readers:—As your pages have been opened but a few times to me since I came to Cuba, I thought I would send in a few more lines to fill up your columns, or else go to the waste-basket.

Cubans who have heretofore been prominent in the move for independence, are declaring for annexation. They see that as long as they are divided into so many different parties of similar strength, there is little hope of concentrated action among themselves. The influence of the wealthier and brainier men will leave the whole island, and as the common people see the beneficent result of a just government, they will vote for a continuance.

Trade is leaping ahead in wonderful bounds. All the steamship lines are overloaded with goods for the island. Of course most of this goes to Havana, which is the principal distributing point for the whole island. At present nearly everything in the merchandise line passes through there.

One difficulty at present is the fact that the American dealer is compelled to employ an interpreter, and that is very unsatisfactory. Few of the merchants on this island speak English. This will be overcome, of course. I hardly think the mercantile trade will be wrested from the Spanish merchants for some time. The field for Americans is in agricultural pursuits. There is no richer soil on earth than the Cuban land. Before the war there was raised 1,000,000,000 tons of sugar and that was done with poor management and worse methods. With American push, new machinery and wise management, there is no reason why this yield should not be greatly increased. Not only is this true in the raising of sugar, but in other products. It takes corn but three months to mature. The average Cuban is satisfied with one crop per annum, which is a clear waste of the ground. This island is recovering from the effects of the war, and the consumption of foodstuffs is increasing every day. At present, grains and meat are the principal imports. It is a wonderful market for the American merchants, and when normal agricultural conditions are resumed, Cuba as a part of America will be one of the richest states on the map.

No country in the world offers better agricultural and horticultural opportunities, but there must be a complete revolutionizing of the methods employed, with few exceptions if the island is to get the largest returns for the efforts put forth. The American farmer would make Cuba blossom as a rose. He would till her fertile soil, as it should be tilled, not merely tickling its surface with an old wooden-tongued plow made in the days of Noah and brought over in the ark. He would provide means of getting his products to market, that would allow him at least half of his time off the road. He would build great granaries and barns for the protection of his crops, and in which to keep them until it suits him to market them. He would care for his stock—the Cubans don't seem to know how to care for their's—and get better labor from them in consequence. These things he would do, and a thousand other things that will go far to make Cuba what it can easily be made to be, the ideal agricultural country of the western world. WM. JOHNSON of Tabor.

HORRIBLE MURDER.

A Nephew Murders His Aunt Because He Said She Had Got Him Into Trouble.

Bradenburg, Ky., Aug. 7.—The horribly mutilated dead body of Mrs. Annie Braunton, a widow 35 years old, was found on the Cedar Grove. Blood stains on the fingers of Mrs. Braunton's nephew, Jesse Durham, caused his arrest and he later confessed the murder and was hurried to Louisville by Sheriff Hagan as a lynching seemed certain. Durham killed Mrs. Braunton with a hickory club while they were returning from a church wedding. He is 27 years old and recently left an insane asylum. He said of the crime.

"I did not mean to kill her; only to knock her down. She had been talking about me and got me into trouble several times."

Checotah Will Celebrate.

Checotah, I. T., Aug. 7.—The citizens of Checotah will give a two days' celebration, beginning Friday. The headquarters of the corps will be at Chickasha, and it is estimated that it will take six months to complete the work in the Chickasaw Nation, after which the boundaries of the towns in the Choctaw Nation will be surveyed.

Brother and Brother-in-law Detained.

Rome, Aug. 7.—The brother and brother-in-law of Bresci, the assassin of King Humbert, have been detained by the police on the charge that they had foreknowledge of the murderer's intention. The former says Bresci frequently practiced with a revolver.

Iron Furnace to Close.

Columbus, O., Aug. 7.—A special from Cleveland, O., says all the Bessemer iron blast furnaces in the country, with two exceptions, will go out of blast Sept. 1. The decision was reached at a meeting just held in this city. A drop in prices on the product and the condition of the market is the cause of action. About 8000 men will be affected.

LEGISLATIVE

Convention Last Saturday—Dr. J. L. Fountain Nominated.

The democratic convention of the Fifty-five representative district, met at the court house in Bryan last Saturday, August 4th at 2:30 p. m.

Hon. C. A. Adams called the convention to order. Dr. Geo. R. Tabor was elected temporary chairman, and C. A. Adams, temporary secretary, and the temporary organization was made permanent.

A resolution was introduced by Dr. J. F. Eaves that the course of our present representative, Hon. Sam R. Mrs. Kate Dansby.

The death of Mrs. Kate Dansby, wife of Mr. M. F. Dansby, briefly mentioned in the Eagle yesterday morning, took place at her home in this city Monday evening at 7:15 o'clock. Mrs. Dansby was 26 years, 3 months and 7 days old.

She was born and raised in this county, in the Steep Hollow community, and was a daughter of Mr. A. Hensarling. She was a true and noble woman, a devoted wife and mother, and greatly beloved by all. When told that her death was inevitable she said she was not afraid to die and called her little ones about her to bid them goodby. She leaves a husband and three children. She was a sister of Messrs. John, Tom, George, Luther and Philip Hensarling and Mrs. R. L. Buchanan, all of this county except Mr. George Hensarling who resides at Taylor. To these and other relatives the sympathy of the Eagle is extended; a sadder or more sudden and unexpected death has rarely occurred in the community.

UNIQUE GATHERING.

Political Enemies Will Meet in Chicago and Extend Greetings.

Chicago, Aug. 7.—Leaders of both great political parties, including representatives of national, state and county organizations of the state, and county candidates on both sides in Illinois will meet and extend greetings before the formal opening of the campaign in a reception to be tendered them on Aug. 17 by the Press Club of Chicago. The reception will be as unique in its character as national in its interest and it will probably be the first time in the history of politics that so many men of opposite political faiths have come together on common ground to be entertained by their common friends and enemies, the newspaper men, and to exchange friendly greetings on the eve of a great political battle.

Election in Alabama.

Birmingham, Aug. 7.—Reports are slow coming in and Captain Smith of the State Democratic campaign committee gives out no figures, but it is estimated that the majority will be more than 50,000. The only issue was a test on the question of holding a constitutional convention which is favored by the Democrats and the increased majorities indicate that the people are favorable to the holding of a convention which will eliminate the negro from politics.

Following are the newly elected state officers:

Governor—William J. Samford.
Attorney general—Charles G. Brown.
Secretary of state—R. P. McDavid.
Treasurer—J. Craig Smith.
Auditor—T. L. Sewell.
Commissioner of agriculture—Robert T. Poole.
Superintendent of education—J. Abercrombie.

Hanna May Speak.

New York, Aug. 7.—Chairman Hanna, of the Republican national committee, may join the army of campaigners to be heard in the west for McKinley and Roosevelt. Perry S. Heath, secretary of the national committee, who arrived here from the Chicago headquarters, declared there had been made demands from the western states to hear Chairman Hanna speak. He told Mr. Hanna this and urged him to respond. The chairman was inclined to consider the proposition but would not decide it.

The Powers Trial.

Georgetown, Ky., Aug. 7.—The fifth week of the trial of Secretary of State Caleb Powers for alleged complicity in the assassination of Governor William Goebel was entered upon Monday. The testimony heard in the courtroom was not sensational and threw no light on the tragedy.

Reports Not True.

Washington, Aug. 7.—A letter dated July 23 has been received at the treasury department from a former employee of that department now at Cape Nome, Alaska. The writer, who has the entire confidence of the officials, says: "The reports of disease and death that have been taken back to the states are untruthful. The smallpox scare is over."

Had His Throat Cut.

Channing, Tex., Aug. 7.—A south-bound freight train on the Fort Worth and Denver arrived here, having on board Mr. Drake, foreman of Matlock section, and Mike McGinnis and Dan Sullivan, section hands. Sullivan has his throat cut and Drake has a gash on top of the head, exposing the skull. Mike McGinnis was immediately taken in charge by Officer J. H. Boyce. A doctor dressed the wounds and ordered Sullivan sent to the hospital at Fort Worth. The cut in his throat is serious.

A BIG BATTLE

Japanese, American Storm the Works
GROUND IS F

Was Made—Our Ministers
Safe on July 28.

Washington, Aug. 7.—The war department received the following cablegram from Gen. Chaffee:

"Che Foo, Aug. 7.—Adjutant general, Washington: At the Tien Tsin, Aug. 3, conference decided to battle Sunday. The Chinese were entrenched east and west through Pei Tsang. The rest of the Chinese were protected by the flooded ground, practically unassailable. Japanese, English and American forces, about 10,000 strong, attacked the Chinese right west of the river in flank. The other forces, Russian and French, about 4,000 strong, the opposite side, between the river and railroad. The Chinese position was strong. The army is reported 30,000 between Pei Tsang and Yang Tsun or the crossing of the road at Pei Ho. Yang Tsun was the objective. Our force was 2,000 and a battery. Conemaugh arrived with the Sixth cavalry, left at Tien Tsin for guard of the city, and is waiting for mounts. Ministers were safe on July 28."

BATTLE OF PEI TSANG.

The Chinese Lost Three Thousand Killed at Taisi Chow.

London, Aug. 7.—A special dispatch to the Associated Press from Tien Tsin dated Sunday, Aug. 5, via Shanghai, Aug. 7, is the only message which has got through from Tien Tsin since the battle of Pei Tsang. Various Tien Tsin dispatches of earlier dates allude to reconnoitering encounters with the Chinese preparatory to a general attack on the Chinese positions there five miles long. The reconnaissance developed the fact that the Chinese are in greater strength than was expected, and the allies, according to a News Agency dispatch from Tien Tsin, dated Aug. 2, are each day pushing nearer to the Chinese position. The Russians who have been fighting around Taisi Chow are reported according to a dispatch from Shanghai, dated Aug. 6, to have killed 3000 Chinese. The taotai of New Chwang has refused the Russian demand to give up the forts there. A dispatch from Hong Kong under today's date says trade with the West river is at a standstill.

It is now fully confirmed that the Fourth brigade of Indian troops have been ordered to China.

FROM SHANGHAI.

Papers in the Viceroy's Possession Offering a Reward for Major Waller.

Shanghai, Aug. 7.—Colonel Meade of the marine corps, has received by a native courier a message wrapped in pigskin signed by Minister Conger as follows:

"Help at once if at all. In British legation. No government in Peking except military chiefs, who are determined on the destruction of foreigners."

The Shanghai correspondent also says that in the papers of the viceroy at Tien Tsin was found a receipt for 100 taels paid to the boxers for the head of Major Waller, of the United States Marines, who was killed at the first battle of Tien Tsin.

The Rev. Dr. Evans, an English missionary, searched the yamen of the Tien Tsin viceroy and found in his private papers full accounts of the doings of the foreign forces during the siege, with lists of the killed and wounded. He also found promises of pensions to the families of all the boxers slain. He found receipts for arms and ammunition from every village. This is proof of the official nature of the boxer movement, and also of the treachery of some one in the ranks of the allies.

The Chinese left 5,000,000 taels in the treasury in Tien Tsin.

From a trustworthy native source is learned that Gen. Ma was murdered by a boxer. There are 30,000 troops at Tang Tsun, under Gen. Sung; 40,000 at Pei Tsang, under Gen. Tung Fuli Siang; 40,000 at Peking already and more arriving daily, and 60,000 in camp twenty miles west of Tien Tsin.

Battle of Pei Tsang.

Copyrighted, 1900, by the Associated Press. Tien Tsin, Sunday, Aug. 5, via Shanghai, Aug. 7.—This morning at daylight 16,000 allies attacked the Chinese at Pei Tsang and forced the enemy from the trenches. The Americans who participated were the Ninth and Fourteenth regiments, Reilly's battery and the marines. A heavy battle is still in progress.

Received No Advice.

Paris, Aug. 7.—At the cabinet council here it was announced that the French government had received no advices tending to show the advance of the allied forces on Peking had been decided upon.

Incendiaries Confess.

Texarkana, Ark., Aug. 7.—James and Cleveland Kelly, two negro boys, were put in jail here charged with burning the big dry kiln of the Little Rock Co-operative company, last Friday. The boys confessed, and say they set three fires at the plant during the last year. During the time named the company has lost \$3000 by fire.

THING READY.

Committee Has Made Ready for the Notification.

Chicago, Aug. 7.—The local committee that have been arranging for the notification of Wm. J. Bryan and E. Stevenson, tomorrow afternoon are now ready to receive their various predictions have been made as to how many people would be there. Some have been as high as 50,000, but those who are inclined to be conservative thought half that figure would be about right.

Mayor Taggart announced that Mayor Carter Harrison would preside at the mass meeting at Tomlinson Hall tomorrow evening. The meeting will begin at 8 o'clock and many special trains will be held in order to give the visitors a chance to hear the candidates speak.

James K. Jones, chairman of Democratic national committee, over a long-distance telephone, has talked with Mayor Taggart and consented to preside at the notification exercises. Mayor Taggart as mayor will call the meeting to order and make a short speech welcoming the visitors to the city and turn the meeting over to Mr. Jones.

James D. Richardson of Tennessee, will make the speech notifying Mr. Bryan, after which Mr. Bryan will speak, and Governor Thomas of Colorado will make a speech notifying Mr. Stevenson, to be followed by a speech of the candidate for vice president. It has been definitely decided that the local and Indiana Democratic clubs shall have the honor of marching in the front rank of the Bryan notification parade.

Bryan and Roosevelt Invited.

Cheyenne, Wyo., Aug. 7.—The executive committee of the Frontier day celebration has sent invitations to Col. W. J. Bryan and Col. Theodore Roosevelt to attend the celebration on Sept. 12-13, and participate in the reunion of Torrey's rough riders, which will probably be held at the same time.

AN AMALGAMATION.

The Building Trades and Trades Council of New York Consolidate.

New York, Aug. 7.—One hundred delegates, representing 75,000 building workmen in New York City and vicinity, have brought about the amalgamation of the board of delegates of the United Building Trades and the Building Trades Council, who have been at loggerheads for two years, at a recent conference in Central Hall. The new body was named the United Council of the Building Trades of New York and vicinity.

General arbitration among all building unions and the doing away with the general strikes caused by rival organizations is the purpose of the amalgamation. All unions refusing to arbitrate voluntarily will be forced to submit to compulsory arbitration or be expelled.

This amalgamation will probably bring about affiliation with the National Building Trades Council of Chicago.

Bryan in Chicago.

Chicago, Aug. 7.—W. J. Bryan has arrived in Chicago, accompanied by Mrs. Bryan, their son, Governor and Mrs. Thomas of Colorado, and Colonel John I. Martin, sergeant-at-arms of the Kansas City convention. The party was met at the Union depot by a local committee, several clubs and a large number of citizens who gave them an enthusiastic greeting. The reception party headed by Mayor Harrison and Frank Wenter, the latter representing the German clubs of the city. The party was driven immediately to the Sherman House.

At the Sherman House Mr. Bryan was immediately ushered in the parlor on the ground floor where he was soon joined by Hon. Adlai E. Stevenson. The candidates greeted each other cordially and standing side by side shook hands with a great number of people. Visitors were more or less enthusiastic and most of them vouchsafed immense majorities at the coming election. One gentleman threw his arms around Bryan's neck and promised him a thousand votes as the result of his own individual efforts.

Harrismith Surrendered.

London, Aug. 7.—General Roberts reports to the war office under date of Pretoria, Aug. 6, as follows:

"Harrismith surrendered Aug. 4. Neighboring country seems to be quiet. Kitchenor is with a force south of Vaal river. He was joined Monday by a strong detachment of Brabant's horse and Canadian regiment. The Boers attacked the garrison at Elands river Aug. 4. Information was sent to Carrington, who was on his way to Elands river. Ian Hamilton, who reached Rustenburg Monday reported hearing heavy firing in the direction of Elands river. The firing now seems more distant which looks as though Elands river garrison had been relieved and was retiring towards Zeerust."

Boer Forces Reduced.

London, Aug. 7.—A Lorenzo Marques of the Daily Telegraph, states that a Frenchman who has just returned from the Boer front, confirms the telegrams which have been received during the last few days describing the pitiable character of the position. General Botha's commando, originally 750, now consists of only 63, and other commandos have been reduced in like proportion owing to the desertions. The remaining burghers have divided into two parties, one for peace and the other for war. The peace party is the stronger.

Kruger is Willing.

Pretoria, Aug. 7.—It is said positively that President Kruger is willing and anxious to surrender provided a satisfactory promise is given as to his ultimate destination.

Some Big Hunters.

New York has some of the famous hunters of the world. Mr. Charles Ranlett Flint has killed the biggest game in both of the Western hemispheres, North and South America. Mr. Edward R. Ladew, the millionaire leather merchant, former partner of old Fayerweather, has ridden the crocodiles of the Nile, Victor Smith asserts, stripped the stripes from the tiger of the Tugela, shot the lion of the llano, potted the rhinoceros of the Ringho, mowed down the proud bull moose of the Massif, bearded in his snowy den the musk ox of Manitoba, slaughtered the peccaries of Patagonia and taught the gorilla of Ghanbezi the art of gnashing his teeth. The Rev. Dr. William S. Rainsford, of St. George's church, has in his study ample evidence of his prowess as a hunter of big game, the walls being decorated with antlers of the royal elk and claws and teeth of the pugnacious grizzly.

Police Protection From Surprisers.

A man appeared at police headquarters in a Pennsylvania city the other day, and requested the services of some officer. Thinking a murder or some kindred crime had been committed, the chief had summoned one of his best men before the real import of the man's request was made manifest. Instead of being a killing affray, the man wanted protection from the onslaught of a proposed surprise party which was to be given to his niece that night. He said he hated such things, and would not have them, even if his wife and niece did want them. He did not wish to be guilty of assault and battery or possibly worse, hence his request for police protection. A roundsman was sent to guard the premises, and, though the guests arrived, they were not allowed to enter the house, so the surprise party did not come off.

The Franking Privilege.

Congress used to have a nice way of conferring the franking privilege to show its appreciation of a man or woman, recalls Victor Smith. A resolution was passed in 1797 that all letters to George Washington should be received and conveyed by post during his life free of charge. In 1801 the privilege of franking was given to John Adams, and in 1828 to Charles Carroll, of Carrollton, the only surviving signer of the Declaration of Independence. The same honor was conferred on Dolly Madison for life, and afterward on the widows of President William Henry Harrison and Abraham Lincoln. In 1873 the privilege was abolished, except for public documents in congress, etc., and departmental matter.
